CEES Conference “Highly Accelerated Lifetime Testing”

Friday 16 February 2007

Following the presentation of Mrs. Chris Peterson on the basis of HALT Testing, this conference will give us the opportunity to listen to a producer and a user of a HALT installation. The conference will end with a visit at a HALT chamber in operation.

PROGRAMME

08.30 Welcome

09.00 “HALT , the start for a better reliability” Prof.dr.ir. Johan CATRY SSE, Ph.D(*)

09.15 “Multi Axis vibration tables. Are they all the same ?” Keith BARBER(**)

10.15 Coffee

10.45 “HALT-A practical approach, Test Tailoring” Nicolas MONTEYNE (CNH***)

11.30 Question time

12.00 Visit at the HALT installation

13.00 Aperitif and sandwiches.
